

Safety & Health Administrator Course for Construction

1 Who Should Attend . . .

This program is a must for anyone concerned about health and safety on the job including:

- ▶ Managers concerned about liability and worker's compensation costs
- ▶ Employees who want to learn proper techniques for protecting their safety and health at work
- ▶ Business owners who want to learn about compliance with MIOSHA

2 Why you need this Workshop . . .

- ▶ To reduce disabling injuries and illnesses to employees - and to ensure that every worker goes home safe and healthy every day.
- ▶ To reduce the high direct costs of work-related injuries, which grew to \$42.5 billion nationally in 2000, and indirect costs, which were estimated at an additional \$127 - \$212 billion in 2002. (*2003 Liberty Mutual Safety Index.*)
- ▶ To enhance your company's bottom line. A strong safety and health commitment not only protects workers, it also reduces worker's compensation costs, improves employee morale, and increases production and quality.

3 What You'll Learn . . .

This seminar is a three-day program designed for managers, lead employees, safety committee members, and others newly assigned to develop or refine a comprehensive safety and health management system. Experienced practitioners could also benefit from this course. Topics include developing a written accident prevention program, MIOSHA recordkeeping requirements, hazard identification and control, select MIOSHA standards, industrial hygiene and ergonomics. This course emphasizes the importance of management leadership in the development and implementation of safety and health management systems prevention and the establishment of goals and objectives.

Facilitator

Debra Stewart Johnson was appointed to the MIOSHA Bureau in 1987. She has worked in both the General Industry and Construction Safety Divisions as a compliance officer before her appointment to the CET division in 2001 as a construction safety consultant. Prior to State employment, Deb worked for the Sheet Metal International Union Local 360 and was the first female to complete the union's apprenticeship program and work as a journeyman. Deb has also worked as a licensed residential builder.

She is an authorized OSHA Construction 10 hour and 30 hour trainer and her college education background includes studies in chemistry, biology, mathematics and engineering. Deb has a wide range of work experience in the bureau from paper mills to agriculture, oil wells to communication towers as well as construction sites.
